## Wondering if it's time for a heating repair?

**Look for these common warning signs:**

- **Lukewarm Air:** Your system isn't producing warm enough air to maintain your desired temperature.
- **Inconsistent Heating:** Some rooms feel warm while others remain cool.
- **Reduced Airflow:** Weak or uneven air circulation throughout your home.
- **Higher Power Bills:** Increased energy consumption due to an inefficient heating system.
- **Funny Noises or Smells:** Unusual sounds or odors emanating from your furnace.
-

**No Response from System or Thermostat:** The system doesn't activate when you adjust the thermostat.
